The Perception

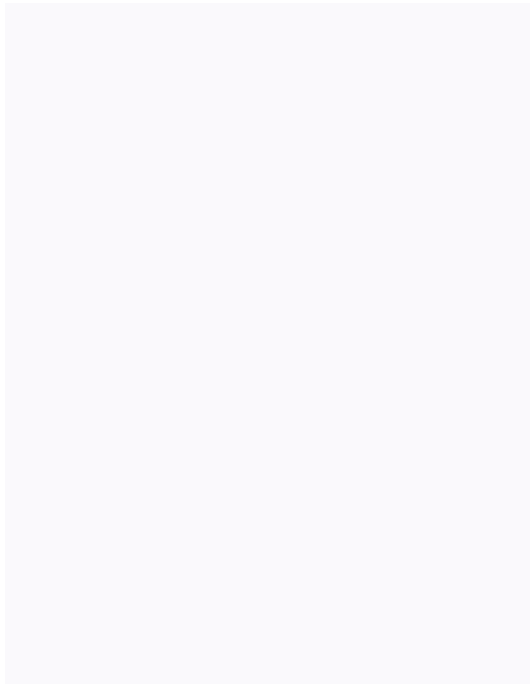

The company was incorporated in 2019 by the young and dynamic entrepreneurs of Eastern India with the intent to manufacture and market quality laminates for Eastern India and its neighboring countries. The promoters understand the product, behaviour of the market, requirements of customers and possess significant experience of marketing in Laminates and Plywood considering they dealt with these items for the last decade. The promoters are also professional, highly-qualified and believe in loyalty & honesty. They are ever-willing to serve the very best to their customers with a myriad of products thereby, offering clients the scope to choose the products that best suit their needs.

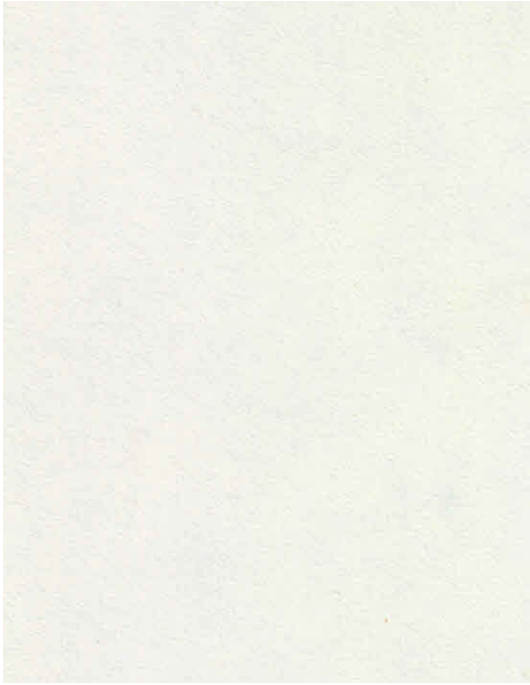

Quality and punctuality shall be the strength of the company "INTIM" which will continue to offer commendable products for its valued clientele. With the growing interior and furniture demand, there is a vacuum for manufacturers in Eastern India and the promoters are keen to serve that customer base.

Our products range shall have wide variety from linens, 0.8mm to 1 mm Laminates with latest designs and material. Apart from the ones mentioned, the company shall offer varieties of Door Skin also. The company proposes to manufacture flush doors, particle boards and MDF Boards very soon thereby, holding several products under "INTIM".

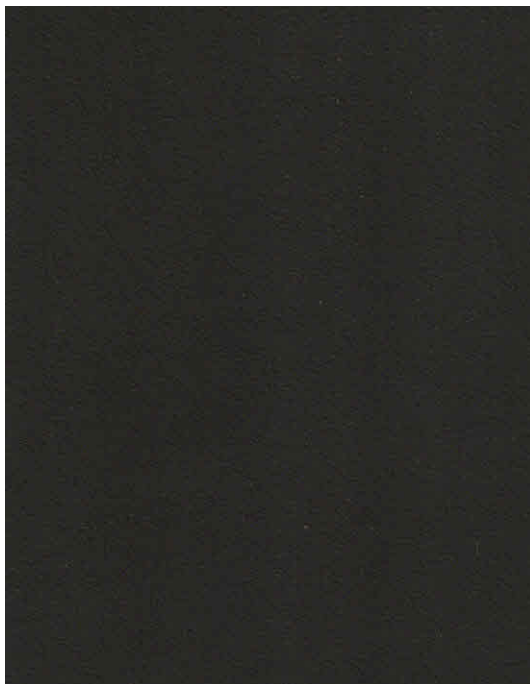

The company strongly believes and relies on adding more value to the products so that our customers, designers, architects, builders, and others can fulfill their requirements.
